

CST EXAM PREP AND REVIEW WORKSHOP

This course is designed to prepare Surgical Technologists to take the CST exam and to demonstrate clinical competence and knowledge of practice standards.

COURSE BENEFITS:

You will learn strategies to help you feel less intimidated. Some simple tricks will help you identify the most likely answer to multiple choice questions even before you consider the content. You will leave with a personal study plan and take five practice tests over the one day course that will help boost your confidence.

This is a straight forward approach to the specific information you will need to successfully complete the CST exam. The content is based on AST recommended standards of practice. This very full day of information is presented in a relaxed, professional atmosphere, delivered with humor and real life events that help you to relate the Recommended Practices to your own practice. You will retain the information for the exam and for years to come. You'll also get 7.75 Contact Hours approved by AST.

Directions to classroom here

This is an interactive course. You will complete five modules and take five practice tests during the one day course. All required hand outs will be provided during class. It is not required for class but I recommend access to a good text book to aid your study. You will learn during class how to focus your study and improve your areas of opportunity. I recommend you schedule your exam the month following The CST Prep and Review Course.

Sylvester Support Services Building (SSB)
Auditorium
1430 NW 11th Avenue
Miami, FL 33136
